

No. 1 on this chart is the same as no. _____ on chart no. _____

AFN=Ancestral File Number

We're driving for a litter-free state

Highway litter detracts from the natural beauty of the state and helps to keep the state clean by disposing of trash properly.

TRAFFIC RULES

Unless otherwise posted, right turns are permitted on a red light after a full stop. "U" turns are allowed except across a painted median or double yellow line. Some communities prohibit right turns within city limits.

Do not pass when the solid yellow line is in your lane. Lane changes, slowing or overtaking maneuvers must be signaled at least three seconds in advance.

Utah speed limits are strictly enforced. The maximum speed limit in Utah is 55 MPH on rural Interstate Highways where it is posted. Please obey all posted speed limits.

ACCIDENTS AND FINANCIAL RESPONSIBILITY

Any traffic accident involving death, injury or damage of \$400 or more must be reported immediately to law enforcement.

Utah has a no-fault insurance law requiring all motorists to carry adequate insurance. The law requires that insured property in your state of residence will be covered adequately in Utah.

WINTER DRIVING CONDITIONS

Mountain driving can be very hazardous during heavy snowstorms, particularly on mountain passes. Some routes most commonly affected are:

US-89, Logan Canyon NE of Logan
US-89 and 91, NE of Brigham City
I-80, Parleys Canyon east of Salt Lake City
US-40, Daniels Canyon SE of Heber
US-6, Soldier Summit SE of Provo
US-191 between Duchesne and Helper
U-31 between Fairview and Huntington
U-14 between Cedar City and US-89

A 24-hour road condition recording system has been reached in the Salt Lake City area to help motorists. Within Utah but outside the Salt Lake City area the number is (800) 492-2424.

Commercial vehicles must have tire chains in possession during winter storms.

Motorists traveling in counties with posted ski areas must have mounted snow tires or chain drive wheels from November 1 through March 31. All-season tires qualify if they have a snow rating from the manufacturer.

Studded snow tires are only permitted on highways from October 15 through April 15.
